The committee appointed by Mayor Spooner at the meeting of March 17th to draw suitable resolutions of respect to the late City Engineer, Mr Louis F. Barzellotti, presented the following Resolution as their report :-

- RESOLUTION - 613

RESOLVED by this the City Council of the City of Lodi in open public session this seventh day of April, 1930, that in the

loss of Mr. Louis F. Barzellotti by death on the 15th day of March, 1930, that this City lost the services of one of the best of its officers and this City one of its most valuable servants.

Since the year 1913, Mr. Barzellotti served this City as its City Engineer attending to his duties well and faithfully, never missing a meeting of the City Council unless absent from the City which was seldom, aiding all other departments of the City in their various problems and representing the City both in private and in public life as a man among men and as an engineer of great knowledge and reputation. As Secretary of the City Planning Commission, his knowledge of practicability combined with beauty and his inherent good taste served to make many of the City's properties things of beauty and of usefulness and though ripe in years, he still had the heart of youth in adapting himself and his work to modern conditions.

We pass this Resolution as a small tribute to his memory directing that it be spread in full upon the minutes of the proceedings of the City Council and hoping that the good effect of his past labors and sound counsel will prevail in the future over the welfare of the City he loved so well.
